

Infection Control & Odour Elimination

For your customers, your staff and your own peace of mind

Infection control for vehicles is new concept for the trade. Covid-19 taught us how easy it is unknowingly to transmit germs of all kinds within the enclosed space of a vehicle cabin.

Garages, car dealers, detailers, taxis, PSVs, mini buses, road haulage, ambulances, and police now need new higher standards of hygiene, especially when different drivers or passengers use the same vehicle.

Primalec's comprehensive solutions will help protect you, your colleagues and customers to stay safer from germs, legal and insurance challenges, and provide fresh odour-free cabins.

Airco Shield Purifier

The UVC Ozone generator- Kills germs, removes bad odours

The Purifier harnesses the natural power of Ozone (O₃) to destroy

- Viruses, Bacteria, Fungal spores & Micro-organisms
- Odours of all kinds
- Tobacco smoke
- Pollens and other allergens

It purifies air, kills germs on hard surfaces, upholstery, carpets, even inside the air circulation channels where bad odours and contaminants accumulate. Ozone's sterilising power is why it is used in clinical environments, water purification and odour eradication. As a gas, ozone has a penetration capacity that liquids and chemicals lack. It goes everywhere but it leaves no residues.

Purifier needs no expensive chemicals - just oxygen (O₂) in the air we breathe to turn it into powerful, oxidizing ozone. Best of all, it does the work for you while you get on with other jobs.

Ozone quickly reverts safely back to oxygen when exposed to fresh air, so when you return to the vehicle after the set time (typically 30 minutes), disinfection is complete. As little as 1 ppm of O₃ can achieve as much as 99.99% disinfection.

Perfect for all vehicles, and ideal for after service vehicle cleansing.

Hidden behind your air vents, the evaporator is a breeding ground for germs and odours.

AC29170 Airco Shield Purifier Ozone Generating cleansing machine Includes operating instructions and guidance, hygiene protocols, consumer flyers, and 'Your vehicle has been purified' mirror hangers.

Airco Breeze

Airco Breeze sanitising spray gets right into the evaporator chamber behind the dashboard, where bacteria, viruses, odour producing fungi grow. The 60cm pipe's omni-directional spray nozzle distributes sanitiser liquid to all those surfaces including the air channels into the vehicle cabin. Use it alone or in combination with Purifier.

Each can treats up to 3 vehicles, depending on size and germ/odour contamination level.

AC2139A Airco Breeze Multi Evaporator Treatment x12

AC2139B Airco Breeze Multi Pack x3 cans + applicator pipe

Airco Shield Hand sanitiser gel

Our kind-to-hands Sanitiser gel is made with 70% cosmetic grade ethanol, purified water and skin conditioner. It also contains a thickening agent to slow down the rate of evaporation, ensuring that the active ingredients have enough time to work on hands. Fitted with a pump dispenser.

Made and Certified in the UK with 99.999% kill rate

to BS EN1276 (bacteria), BS EN14476 (virus), BS EN1650 (moulds), BS EN13624 (yeasts - medical) & BS EN13277 (bacteria, medical).

SP004 Airco Shield Hand Sanitiser gel 70% alcohol, 500ml pump

SP004-12 Airco Shield Hand Sanitiser gel 70% alcohol, 500ml pump - x12

Airco Refresh

This hands free single treatment total release aerosol sanitiser is quick and easy to use, and quickly circulated around the vehicle interior, and through the air channels. Just place the can in the passenger foot well or on the centre console, switch the fan to recycle at half speed, press the button and exit the vehicle with all doors and windows closed. 12 cans per case. Made in the UK.

AC2239F Airco ReRefresh - Freshwater

AC2239M Airco ReRefresh - Mint

AC2239V Airco ReRefresh - Vanilla

AC2239FMV Airco ReRefresh - mixed x12, x4 of each

Airco Shield sanitiser spray

This hard surface sanitiser spray is made for you with 65% ethyl alcohol and purified water. Other ingredients reduce the evaporation rate to ensure effective disinfection.

Made and Certified in the UK with 99.999% kill rate

to BS EN1276 (bacteria), BS EN14476 (virus), & BS EN1650 (moulds)..

SP015-12 Hard Surface Sanitiser spray 65% alcohol, 1000ml x12 refill

Airco Shield Tiltable Face Visor

Our comfortable face visor has a durable injection moulded headband, easy adjustment and a clear replaceable visor screen. Unlike face masks this protects your eyes and whole face from splashes and droplets projected by sneezes, which is why most clinicians wear both masks and visors. Made in the UK.

SP020 Tiltable Face Shield moulded headband

SP021 Spare Visor for SP020
